OBJECTIVE

Software Engineer passionate about AI, Machine Learning, and scalable backend systems with hands-on experience building LLM-powered applications, real-time AI systems, and full-stack platforms using FastAPI, React, and Python.

EDUCATION

MHT-CET 2021 Score:- 90.91 percentile

Bachelor of Engineering (B.E) in Information Technology:-

Mumbai University, Datta Meghe College of Engineering (DMCE):-

Sem 1 : 7.78, Sem 2 : 8.30 , Sem 3 : 7.65 , Sem 4 : 7.65 , Sem 5 : 8.09 , Sem 6: 8.5 , Sem 7:8.5

SKILLS

- **Machine Learning & AI:** Machine Learning Models ,Convolutional Neural Network(CNN),Recurrent Neural Network, LangChain , LangGraph,Neural Network.
- **Programming & Web:** Python ,Java, ReactJS, Node.js, Express, Solidity,Ethereum,
- **Databases:** MySQL, MongoDB
- **DevOps & Version Control:**Linux, Git, GitHub
- **APIs & Tools:** Retrieval-Augmented Generation (RAG), WebRTC, n8n.
- **Soft Skills :** Strong Communication & Teamwork

EXPERIENCE

Machine Learning Intern

Internshala Trainings (Remote)

Jan 2024 – Mar 2024

- Completed 8-week internship on Machine Learning covering Linear Regression, Decision Trees, and Model Evaluation
- Built end-to-end ML models on real-world datasets using Python and scikit-learn

PROJECTS

Algo-X– (React.js, Node.js, Express.js, MongoDB, Blockchain, MetaMask) [<https://github.com/TusharFodse/Algo-X>]:

- Developed an AI-powered algorithmic trading platform with real-time market analytics, portfolio tracking, and interactive trading dashboards .
- Integrated blockchain wallet connectivity and Achieved 97%–100% validation accuracy across BTCUSDT, ETHUSDT, and SOLUSDT models using real-time Binance OHLC market datasets.

MultimediaFreeZone – (MERN Stack , CNN ,Ollama,Chatbot)[<https://github.com/TusharFodse/mediafreezone>]:-

- A full-stack web application (MERN Stack) to provide non-copyrighted images and media using AI.
- Built custom CNN detection model using achieving 81.72% test accuracy for multimedia image classification.

Attendance System Face Recognition – (LBPH, Haar Cascade)[<https://github.com/TusharFodse/mediafreezone>]:-

- Built a real-time face recognition-based attendance system integrated with an embedded ESP32-CAM for stream
- Automated contactless attendance logging with 95%+ recognition accuracy, supporting batch-wise CSV reports and MySQL database storage for efficient attendance management.

Avatar Shikshak –(React, Fastapi, Elevenlabs TTS, PostgreSQ)[<https://github.com/TusharFodse/AvatarShikshak>] :-

- Developed an AI-powered Virtual Teacher using FastAPI, React, WebSockets, and LLM integration to explain PDF chapters with real-time voice interaction and multilingual support.
- Implemented intelligent PDF processing, chunk-based memory management, text-to-speech, and AI-generated study notes for interactive and personalized learning experiences.

EXTRA-CURRICULAR ACTIVITIES

- Finalist – Smart India Hackathon (SIH), Govt. of India’s national-level innovation program
- Attended workshops on AI, ML, and Web Development.

LEADERSHIP

Lead college teams in AI project development
